

David Steiner

Royal Oak, MI 48073
(906) 282-8330
dsteiner247@gmail.com

- Paramedic entering the field of web/software engineering after completing a Javascript boot camp at Michigan State University
- Transferable responsibilities as a paramedic include: adhering to outlined protocols, a bias to action, and ability to independently solve problems quickly
- Ideally, seeking role as an entry-level developer on a supportive team where I can make meaningful contributions and independence is encouraged
- Will work on site within driving distance of Royal Oak, MI but comfortable with hybrid or fully remote roles as well
